

WEB DEVELOPER / SOFTWARE DEVELOPER

SUMMARY

Aspiring web developer / software developer with a strong foundation in frontend and backend development, specializing in the MERN stack. Seeking to leverage technical skills and a passion for problem-solving within a dynamic development team. Once a learner of all things Greek and Roman; currently a developer of web applications.

SKILLS & COMPETENCIES

- **Tech stack:** MERN stack (MongoDB, Express.js, React.js, Node.js)
- **Languages:** JavaScript, HTML, CSS
- **Libraries and frameworks:** React.js (SPAs), Next.js
- **Design:** Bootstrap, TailwindCSS, frontend user interface design, responsive design, mobile compatibility
- **Databases:** MongoDB (NoSQL), Google Firebase
- **Other tech skills:** RESTful API development, GitHub, version control, technical design, user requirements, continuous integration, continuous delivery, user authentication, user authorization
- **Other soft skills:** problem solving, attention to detail, communication, teamwork, skill development

EXPERIENCE & CERTIFICATIONS

Traversy Media (course provider), *Brad Traversy*

Node.js API Masterclass with Express & MongoDB

- Developed a backend Node.js-based RESTful API for a bootcamp directory application (DevcamperAPI)

Next.js from Scratch

- Developed and deployed a full-stack Next.js property-rental listing platform (PropertyPulse)

MERN Stack from Scratch: eCommerce

- Developed and deployed a full-stack MERN eCommerce website with Stripe integration and admin management (ProShop)

Modern JavaScript from the Beginning

- JS fundamentals, document object model, asynchronous JS, web APIs, object oriented programming

React Front to Back

- Developed and deployed a full-stack MERN real estate platform (HouseMarketplace)
- Developed and deployed a full-stack MERN ticket system for an IT service application (SupportDesk)

The Web Developer Bootcamp (online bootcamp), *Colt Steele*

- Developed and deployed a full-stack EJS yelp-like platform for campgrounds (YelpCamp) where users can browse, review, and add campgrounds by geographic location

Full Stack Development with MERN: Professional Certificate in Coding (8 month online bootcamp), *M.I.T.*

- Developed and deployed a full-stack MERN banking website (BadBank) where users can view balances and deposit/withdraw funds, and an admin can view all information
